SUMMARY

Software developer shipping production web applications in Angular, TypeScript, React, and Next.js - every project delivered with automated test suites and CI/CD pipelines. Built an Angular underwriting calculator used in real-world workflows at Progressive, piloted for a month with 100% documented accuracy, and a full-stack lead intelligence platform that replaced over \$25,000 in manual research labor. At Progressive since 2019 and in underwriting since 2021, bringing seven years of insurance industry experience and a disciplined, client-focused approach to building fast, intuitive software.

TECHNICAL SKILLS

Languages & Web: JavaScript (ES6+), TypeScript (object-oriented - classes, services, dependency injection), HTML5, CSS3, TailwindCSS

Frameworks & Libraries: Angular, React, Next.js (App Router), Node.js, Redux, Zustand, React Query, GSAP

AI & APIs: OpenAI API (GPT-4o, GPT-4o-mini), Google Places API, REST API integration, web scraping

Testing & CI/CD: Vitest, Playwright (E2E), Jest, Cypress, GitHub Actions

Data & Processing: CSV processing, Papa Parse, data deduplication, business register APIs

Tools & Platforms: Git/GitHub, Vercel, Vite, Figma, VS Code, Firebase

EXPERIENCE

Freelance Web Developer

2026 – Present

- Built and shipped a production website from the ground up for a live equestrian business (The Wicked Woods Equestrian Center), partnering directly with the owner to scope, design, and deliver the site.
- Developed in Next.js, TypeScript, and Tailwind CSS with Framer Motion animations and a Resend-powered contact form; fully responsive across desktop, tablet, and mobile.
- Added automated test coverage with Jest (unit) and Cypress (end-to-end), backed by a GitHub Actions CI pipeline that builds the app and runs the test suite on every push.

Progressive Insurance - Sales Specialist / Senior Underwriter (Remote)

2019 – Present

- Ranked #1 sales agent in the Cleveland region (2020), consistently exceeding performance metrics in a high-volume, compliance-driven environment.
- Led support operations for a team of 10–15 specialists, improving onboarding and training efficiency.
- Mentored new hires - developed training materials and coached junior team members on regulatory compliance and client engagement.

PROJECTS

AP Workup Tool [Live Demo](#) · [GitHub](#)

May 2026 – Present

- Angular 21, TypeScript, Vitest, Playwright: insurance underwriting calculator built for real-world use at Progressive Insurance, with state-specific logic for years-licensed calculations and premium percentage changes.
- Piloted by the underwriting team for one month with 100% documented accuracy across all logged usage; full unit/E2E test suite and a GitHub Actions CI/CD pipeline auto-deploying to Vercel on every merge.

Buyers Agent Lead Scraper [Live Demo](#) · [GitHub](#)

April 2026 – Present

- Next.js 15, OpenAI API, Google Places API: full-stack lead intelligence platform replacing \$25,000+ in manual research labor; scraped, enriched, and ABN-verified 5,783 businesses across 101 geographic areas with an 85% verification rate and a multi-layer GPT-4o-mini enrichment pipeline.

EDUCATION

Frontend Simplified - Full-Stack Development Certificate

2026

University of Toledo - Film & Music Studies

2006 – 2007
