

MARK WALDRON

Software Developer · React · Next.js · TypeScript · Full-Stack JavaScript
contact@mark-waldron.com · (440) 279-7804 · Cheyenne, WY · [LinkedIn](#) · [Portfolio](#)

SUMMARY

Software developer specializing in React, Next.js, and TypeScript, with a track record of shipping production web applications for real paying clients. Built and deployed a full-stack lead intelligence platform that replaced over \$25,000 in manual research labour, processing 5,783 business records across 101 geographic areas using the Google Places API and OpenAI. Underwriting professional at Progressive since 2019, bringing firsthand knowledge of insurance business processes and a disciplined, client-focused approach to building fast, intuitive software.

TECHNICAL SKILLS

Languages & Web: JavaScript (ES6+), TypeScript, HTML5, CSS3, TailwindCSS

Frameworks & Libraries: React, Next.js (App Router), Angular, Node.js, Redux, Zustand, React Query, GSAP

AI & APIs: OpenAI API (GPT-4o, GPT-4o-mini), Google Places API, REST API integration, web scraping

Testing & CI/CD: Vitest, Playwright (E2E), Jest, Cypress, GitHub Actions

Data & Processing: CSV processing, Papa Parse, data deduplication, business register APIs

Tools & Platforms: Git/GitHub, Vercel, Vite, Figma, VS Code, Firebase

EXPERIENCE

Freelance Web Developer

2026 – Present

- Built and shipped a production website from the ground up for a live equestrian business (The Wicked Woods Equestrian Center), partnering directly with the owner to scope, design, and deliver the site.
- Developed in Next.js, TypeScript, and Tailwind CSS with Framer Motion animations and a Resend-powered contact form; fully responsive across desktop, tablet, and mobile.
- Added automated test coverage with Jest (unit) and Cypress (end-to-end), backed by a GitHub Actions CI pipeline that builds the app and runs the test suite on every push.

Progressive Insurance — Sales Specialist / Senior Underwriter (Remote)

2019 – Present

- Ranked #1 sales agent in the Cleveland region (2020), consistently exceeding performance metrics in a high-volume, compliance-driven environment.
- Led support operations for a team of 10–15 specialists, improving onboarding and training efficiency.
- Mentored new hires — developed training materials and coached junior team members on regulatory compliance and client engagement.

PROJECTS

Buyers Agent Lead Scraper [Live Demo](#) · [GitHub](#)

April 2026 – Present

- Next.js 15, OpenAI API, Google Places API: full-stack lead intelligence platform replacing \$25,000+ in manual research labour; scraped, enriched, and ABN-verified 5,783 businesses across 101 geographic areas with an 85% verification rate and a multi-layer GPT-4o-mini enrichment pipeline.

AP Workup Tool [Live Demo](#) · [GitHub](#)

May 2026 – Present

- Angular 21, TypeScript, Vitest, Playwright: insurance underwriting calculator built for real-world use at Progressive Insurance, with state-specific logic for years-licensed calculations and premium percentage changes.
- Piloted by the underwriting team for one month with 100% documented accuracy across all logged usage; full unit/E2E test suite and a GitHub Actions CI/CD pipeline auto-deploying to Vercel on every merge.

EDUCATION

Frontend Simplified — Full-Stack Development Certificate

2026

University of Toledo — Film & Music Studies

2006 – 2007
